Vaniyambadi, Tamil Nadu

SUMMARY

Final-year BCA student at VIT Vellore with hands-on experience in full-stack and mobile application development. Quick to learn new technologies, adaptable to unfamiliar tools, and skilled at leveraging AI to accelerate development and deliver real-world software solutions.

TECHNICAL SKILLS

Programming: Java, Python, C++, JavaScript, TypeScript
Frontend: HTML5, CSS3, React.js, Tailwind CSS, Bootstrap
Backend: Node.js
Database: MySQL, MongoDB
Tools: Git, GitHub, Antigravity, Postman

EXPERIENCE

Full Stack Developer Intern May 2026 – Present
SuperCX (Remote)
– Developing full-stack web and mobile application features using modern JavaScript technologies.
– Collaborating with developers to implement features, resolve bugs, and improve application performance.
– Quickly learning new technologies and delivering assigned tasks using documentation and AI-assisted development.

PROJECTS

AI-Based Smart Emergency Evacuation System — Website 4th Semester
Python Flask — JavaScript — MySQL — ESP32 — Twilio — Ant Colony Optimization
– Developed an AI-powered evacuation platform using hybrid Ant Colony Optimization (ACO) for hazard-aware route planning.
– Built an interactive dashboard with live building visualization, IoT alerts, and dynamic evacuation routes.
– Filed an Indian patent for the proposed smart evacuation system integrating AI and IoT technologies.

Online Voting System — GitHub 3rd Semester
Java — JDBC — MySQL
– Developed a Java desktop application with secure Admin and Voter authentication.
– Implemented one-vote-per-user restriction, candidate management, and live vote counting using JDBC and MySQL.
– Designed a role-based system with registration, login, voting, and result management modules.

ACHIEVEMENTS

Filed an Indian patent (Application No. 202641068381) for an AI-powered smart emergency evacuation system using Ant Colony Optimization and IoT sensor fusion.

Participated in multiple hackathons, building AI, computer vision, and full-stack software solutions.

EDUCATION

Vellore Institute of Technology (VIT) Vellore, Tamil Nadu
Bachelor of Computer Applications (AI & ML) Jul 2024 – Jul 2027
– CGPA: 8.96 / 10

Islamiah Boys Higher Secondary School Vaniyambadi, Tamil Nadu
Higher Secondary (Mathematics & Computer Science) Jun 2022 – Mar 2024
– Class XII: 85.5%
– Class X: 79.4%

ADDITIONAL INFORMATION

Core Strengths: Object-Oriented Programming, Problem Solving, Debugging
Languages: English, Hindi, Tamil, Urdu
Interests: Full-Stack Development, Mobile App Development, AI Applications
